Privacy & Security

We are committed to protecting your privacy. When you enter your credit card number on our order forms, we encrypt that information using secure socket layer technology (SSL) and we store your credit card number in encrypted form for a limited amount of time, and our employees do not have access to this information. We do not store PIN data or security codes.

Under no circumstances do we rent, trade or share your email address with any other company for their marketing purposes without your consent. We use your personal information for internal purposes such as processing and keeping you informed of your order. You may receive information from us about new features, new services and special offers we think you'll find valuable.

Most financial institutions will remove a pre-authorization hold from your account when the actual transaction amount is debited from your account or three to five business days after the pre-authorization request, whichever occurs sooner. Since policies vary between different financial institutions, we recommend that you contact your financial institution with any further questions about a pre-authorization.
